

Two-Week Intensive Course in Byzantine Archaeology of Greece

This intensive programme offers advanced training in Byzantine archaeology and history of art through direct engagement with monuments, material culture, archives, and landscapes across Greece. Teaching combines lectures, on-site seminars, guided field visits, and handling sessions, with a strong emphasis on research methodologies and critical interpretation.

The course is based at the British School at Athens (BSA) and includes extensive travel across central and southern Greece and Macedonia, offering a coherent north-south perspective on Byzantine urbanism, economy, and religious life.

Tuesday 23 June: Arrival in Athens

Participants arrive independently in Athens and settle at the BSA.

An informal welcome and orientation session introduces the course structure, logistics, and academic aims.
